

Nutrition

All children should eat a healthy diet, including children with type 1 diabetes. So what exactly is considered “healthy?”

ChooseMyPlate.gov helps you find the right mix of foods to help you make healthy choices. Focus on all five food groups including [fruits](#), [vegetables](#), [grains](#), [protein foods](#), and [dairy](#) to get the nutrients you need. Here are some recommended guidelines:

- Make half your plate fruits and vegetables.
- Focus on whole fruits and vary your veggies.
- Make half your grains whole grains.
- Move to low-fat and fat-free dairy.
- Vary your protein routine.

It is also important to eat the right amount of calories based on age, sex, height, weight, and physical activity level.

Nutrition

Daily calorie needs based on age, gender, and activity level

Age (Years)	Gender	Sedentary (Not Active)	Moderately Active	Active
2-3	Male or female	1,000	1,000	1,000
4-8	Male	1,200 – 1,400	1,400 – 1,600	1,600 – 2,000
	Female	1,200 – 1,400	1,400 – 1,600	1,400 – 1,800
9-13	Male	1,600 – 2,000	1,800 – 2,200	2,000 – 2,600
	Female	1,400 – 1,600	1,600 – 2,000	1,800 – 2,200
14-18	Male	2,000 – 2,400	2,400 – 2,800	2,800 – 3,200
	Female	1,800	2,000	2,400
19-30	Male	2,400 – 2,600	2,600 – 2,800	3,000
	Female	1,800 – 2,000	2,000 – 2,200	2,400

From www.Healthychildren.org

Remember that every child is different and these are recommended guidelines. Your child may need extra calories when they are being very active or if they are going through a growth spurt.
